

PLANNING AND BUILDING FOR ACCESSIBILITY

Compliance Training Related to Americans with Disabilities Act (ADA) Guidelines

PROGRAM OVERVIEW

Training for proper construction of ADA compliant wheelchair ramps, sidewalks and crosswalks.

This course is designed to provide you with insight into the demands of planning and building within the public right-of-way with a focus on achieving accessibility for persons with disabilities. The challenges Oklahoma City faces are not unique and with the proper information integrated into the planning and developing process, accessibility barriers can be removed.

COST & REGISTRATION

No fee is associated with the training; however on-line registration is requested and preferred. To register on-line, visit www.communitytraining.ou.edu. 6 CEU's are offered for each course.

For information or to register via phone, please contact 405-325-2848.

The City of Oklahoma City is committed to achieving accessibility for persons with disabilities by providing training and certification and partnering with the University of Oklahoma, consultants and contractors.

In the future all contractors, consulting engineers and architects wishing to participate in the City of Oklahoma City construction projects with ADA requirements will be required to have ADA training and certification.

DATE

January 13, 2009

January 22, 2009

January 27, 2009

January 29, 2009
